Press Release

DATE: 2/15/2017

OFFICE POINT OF CONTACT: Sheriff G. Ellis

The Ohio Department of Public Safety has notified the Brown County Sheriff's Office that (15) mobile data computers will be transferred to the Sheriff's Office. These mobile data computers are purposely designed for use in patrol unit environment and provide mobile access to law enforcement information systems.

The approximate value of these mobile data computers is \$55,000. These computers will increase the safety and efficiency of the Deputies assigned to the road patrol by providing real-time information access and remote reporting writing capabilities.

The Brown County Sheriff's Office would like to thank Director John Born of the Ohio Department of Public Safety and Colonel Paul Pride of the Ohio Highway Patrol for their efforts in securing these mobile data computers to the Brown County Sheriff's Office. Their support was instrumental in the provision of these mobile data computers.
